Big Pharma And The Black Widow Herself Are Laughing... All The Way To The Bank

**She spent years spinning a
complicated web of deceit that
now *kills 339 people every day,
all year long.***

Vernon S. of Jacksonville, FL, was
almost one of them.

The news couldn't have been worse for
Vern. Advanced prostate cancer. Not only that, it had
metastasized. Vern's lymph nodes were riddled with diseased
cells.

That was six years ago. But Vern's still going strong today,
disease free.

He's one a growing number of seniors, now over 200,000, who
have freed themselves from this sinister web and taken back
control of their health.

And they're living healthier, happier lives as a result. You can,
too. I'm going to show you how.

I'm also going to get you started with access to over 90 groundbreaking discoveries that will put you in power of your health, including the one that saved Vern.

It's so important, I want you to have it FREE.

Dear Trusting Senior,

It makes me so angry.

The complicated web that has you entangled in the profit-hungry clutches of Big Pharma is beyond words.

And it's getting worse.

The people in power are lying to us. And we're dying as a result. Even the government acknowledges it -- according to the FDA, that number was 123,927 people in 2014.

Most of them seniors.

I'll tell you more about that sad, scary truth in a minute.

There's no doubt in my mind that this deceitful, deadly web goes far beyond what I've been able to uncover so far.

I'm going to show you what I found out and, more importantly, what you can do to keep yourself and your loved ones from being ensnared.

Hillary has been spinning this web for the past 8 years and has already personally pocketed \$3,626,000 as a result of her efforts.

And her “vision for universal, quality, affordable health care” (the one she recently outlined in The New England Journal of Medicine) will make sure **no one escapes**.

Hillary announced she’s fought her entire career towards this goal. She talks about the “tremendous strides” made in the last two decades.

I don’t know about you, but the only thing I’ve seen in the last 2 decades is less choice on the doctors I can see, higher healthcare premiums, and less coverage.

And Hillary blames the rising out-of-pocket costs on a health care system that’s too “fragmented.”

At least that’s what she wants us to believe.

So she’s on a personal mission to expand her web even further to make sure every last person gets caught in it.

And it goes way beyond Big Pharma...

This web also includes insurance companies, trade associations, the media... even the FDA.

But I’M on a mission, too. And it’s to make sure as many people as possible have a way to escape.

My name is XX. I’m the Director of XX.

In case you haven't heard of us, XX is a XX company dedicated to finding natural cures for many diseases.

Even the so-called "age-related diseases." (Most of which, by the way, don't really exist. It's just one of the tactics the people in power use to make sure you keep feeding the Big Pharma profit machine.)

We've discovered cures for heart disease, cancer, Asthma and COPD, osteoporosis, diabetes, and memory loss. And much, much more.

And the people in power are working very hard to make sure you don't find out about these amazing, natural treatments that will free you from the "healthcare" system.

I'm going to tell you all about this in the next few minutes, as well as how YOU can reclaim your independence.
